WELCOME

Like many across south-eastern Australia, the 2024/2025 season brought its fair share of challenges for us at Fairview. From late November 2024 through to early June 2025, we recorded just 103mm of rainfall – a stark contrast for our typically reliable rainfall area. It wasn't until June that we received our much-needed 'autumn break.' Since then, however, we've had 450mm of rain, and Greg describes the season as somewhat typical conditions. We're now seeing runoff and the dams are nearly overflowing which is a welcome sight!

For our 2024 drop rams, the dry conditions through summer and autumn meant that they have been supplementary fed a combination of CopRice Ewe & Lamb pellets, beans and wheaten hay, until the end of August when pasture finally got going. Tough conditions demanded tough decisions, and in February, the draft of approximately 30 rams was selected. As the rams were shorn in December, the focus was on growth performance and structural soundness.

The result is a strong draft of sale rams displaying exceptional width, depth of carcass, and excellent structural attributes. While wool figures are slightly stronger than in 2024, we attribute this to the high nutritional support provided through supplementary feeding.

On behalf of Greg, Kaye, and Sam, we warmly welcome you to our 2025 Ram Sale. We appreciate your ongoing support and interest in our program, and we wish all our clients a successful and rewarding year ahead.

PERFORMANCE RECORDING

To work towards our objectives efficiently, animals are individually recorded on Sapien Technology Kool Collect software where the following information is recorded:

- Electronic identification
- Health treatments
- Wool & Carcase Measurements
- Pedigree
- Weight gain
- Breeding Performance

OUR FOCUS

As we look toward 2026, our breeding program continues to focus on producing well-balanced, productive animals, with the introduction of Australian Sheep Breeding Values (ASBVs) now being incorporated into our selection process. We are placing particular emphasis on improving fat and eye muscle depth - traits that enhance lamb survival, maternal ability, and resilience under challenging seasonal conditions. These carcass traits will be balanced with our ongoing commitment to high-quality wool and continued improvements in structural soundness. Operating in a 900mm rainfall zone, with consistently cool temperatures (averaging between 10–20°C) and frequent cloud cover, our breeding focus also reflects the demands of this environment. Key areas of selection include fertility, feet, fleece, and maternal traits.

Fertility – stud ewes are joined to Polwarth rams for one cycle only, ensuring replacement ewes come from early cycling dams. Ewes are pregnancy scanned to determine their status.

Feet – we continually select for good hoof structure which stands up to the persistent soggy conditions.

Fleece – we select for white, well-nourished wool with good staple structure. For commercial reasons, we have slowly decreased the average micron of the flock which is currently sitting at 21.6 micron.

Maternal Traits – maternal traits of strong mothering and milking ability are vital for lambs to survive and thrive in our environment. To monitor these traits:

- Lambs are tagged at birth with the number of lambs born and number of lambs reared recorded.
- Ewes are given a mothering score of 1-5 (very good to very poor). Only ewes who score 1, 2 or 3 are kept in the stud.
- Ewes are checked for wet/dry and udder health at marking.
- Lambs are weighed at weaning.

AuctionsPlus

How to Register and Bid on AuctionsPlus

1

Go to www.auctionsplus.com.au to register at least 48 hours before the sale.

2

Select **"Sign Up"** in the top right hand corner.

3

Fill out your name, mobile number, email address and create a password.

4

Go to your emails and confirm the account.

5

Return to AuctionsPlus and log in.

6

Select **"Dashboard"** and then select **"Request Approval to Buy"**.

7

Fill in buyer details and once completed go back to Dashboard.

8

Complete buyer induction module (approx. 30 minutes).

9

AuctionsPlus will email you to let you know that your account has been approved.

10

Log in on sale day and connect to auction.

11

Bid using the two-step process – unlock the bid button and bid at that price.

12

If you are successful, the selling agent will contact you post sale to organise delivery and payment.

For more information please contact us on:

Phone: (02) 9262 4222

HIGHLIGHTS FOR FAIRVIEW IN 2025

LANDLINE APPEARANCE

Airing on 17th August 2025, *Fairview* was featured in an ABC *Landline* story about the Polwarth breed. Greg and Sam had the pleasure of meeting reporter Tim Lee and cameraman Andrew to film scenes and be interviewed for the segment. It was a once-in-a-lifetime opportunity to appear on *Landline*—a program Greg watches religiously every Sunday.
